Welcome to Amaze!

A plan that benefits the whole family.

Concierge-style virtual care at the touch of a button!

Convenient access to concierge-style care when you need it most.

What is concierge-style virtual care? It's having a "doctor friend" everyone wishes they had for anything health-related (current health concern, illness, accident, chronic condition, mental health, etc.). Amaze is the always-accessible, independent healthcare partner for your family.

Connect with a provider via message, voice call, or video call from the App. We can treat most conditions virtually, but if you need to get imaging, blood tests or see a specialist, our patient advocates will find the best providers available and who meet your financial needs.

Amaze Health providers provide collaborative care so that all patients has access to the expertise required to meet their needs. And we follow-up, just to make sure issues are resolved.
