CHAS-BR 0525

This is a Cancer and/or Heart and Stroke Insurance Policy
Underwritten by: ManhattanLife Insurance and Annuity Company, and The Manhattan Life Insurance Company

Cancer and/or Heart and Stroke

The Financial Risks are Undeniable

Life can be unpredictable, but your health insurance doesn't have to be. ManhattanLife's Cancer and/or Heart & Stroke supplemental insurance policy provides peace of mind with a lump-sum cash benefit if you're diagnosed with cancer or a heart/stroke-related condition. Featuring a maximum Cancer benefit of $75,000 and a maximum Heart and Stroke benefit of $75,000, you can recover with confidence in a policy that's simple and comprehensive.

Patients who lack health insurance coverage are at elevated risk of substantial financial hardship, particularly in an era of rapidly rising healthcare costs and inflationary pressures. [1]

Rising Costs

The Peterson Center reported that healthcare spending in the U.S. during 2019 was $11,582 per person and expected to climb to roughly $18,000 per person by 2028. [2]

Rising Debt

A 2019 congressional research service report found that the percentage of elderly households, people 65 or older, with any type of debt increased from 38% in 1989 to 61% in 2016. [3]

Inflation

Price tags on consumer goods from processed meat to dishwashing products have risen by double-digit percentages from a year ago. [4]
